Journal of Sports Sciences, 1990, **8**, 321–322

Subject index

Aiming time, cardiac cycle, electrocardiogram, archery, postural sway, 203
Anaerobic threshold, OBLA, children, blood lactate, exercise, peak $\dot{V}O_2$, training, 139
Anticipation, expert–novice differences, racket sports, skilled performance, visual perception, 17
Archery, arrow, bow, shooting, simulation, 259
Archery, biomechanics, electromyography, release, 215
Archery, Coda-3, biomechanics, kinematics, posture, sway, skill, target sports, 223
Archery, electromyography, muscle activity, specificity, target shooting, 235
Archery, postural sway, aiming time, cardiac cycle, electrocardiogram, 203
Arrow, bow, shooting, simulation, archery, 259
Asthma, endurance running, blood lactate, half-marathon, 103
Biomechanics, electromyography, release, archery, 215
Biomechanics, kinematics, posture, sway, skill, target sports, archery, Coda-3, 223
Blood lactate, exercise, peak $\dot{V}O_2$, training, anaerobic threshold, OBLA, children, 139
Blood lactate, half-marathon, asthma, endurance running, 103
Bow, shooting, simulation, archery, arrow, 259
Cardiac cycle, electrocardiogram, archery, postural sway, aiming time, 203
Children, blood lactate, exercise, peak $\dot{V}O_2$, training, anaerobic threshold, OBLA, 139
Coda-3, biomechanics, kinematics, posture, sway, skill, target sports, archery, 223
Competitive levels, gymnastics, psychological factors, 149
Electrocardiogram, archery, postural sway, aiming time, cardiac cycle, 203
Electromyography, muscle activity, specificity, target shooting, archery, 235
Electromyography, release, archery, biomechanics, 215
Elite weight lifters, physique, young weight lifters, weight classes, somatotype, 119
Endurance running, blood lactate, half-marathon, asthma, 103
Exercise, peak $\dot{V}O_2$, training, anaerobic threshold, OBLA, children, blood lactate, 139
Expert–novice differences, racket sports, skilled performance, visual perception, anticipation, 17
Forward play, rugby, scrummaging, spinal injury, rules of play, 47
Gymnastics, psychological factors, competitive levels, 149
Half-marathon, asthma, endurance running, blood lactate, 103
Hostility, karate, jui jitsu, length of training, 95
Jui jitsu, length of training, hostility, karate, 95
Karate, jui jitsu, length of training, hostility, 95
Kinematics, posture, sway, skill, target sports, archery, Coda-3, biomechanics, 223
Lactate turnpoint, peak treadmill velocity, running performance, marathon, ultramarathon, $\dot{V}O_2$ max, 35

Length of training, hostility, karate, jui jitsu, 95
Marathon, ultra-marathon, $\dot{V}O_2$ max, lactate turnpoint, peak treadmill velocity, running performance, 35
Muscle activity, specificity, target shooting, archery, electromyography, 235
OBLA, children, blood lactate, exercise, peak $\dot{V}O_2$, training, anaerobic threshold, 139
Peak treadmill velocity, running performance, marathon, ultra-marathon, $\dot{V}O_2$ max, lactate turnpoint, 35
Peak $\dot{V}O_2$, training, anaerobic threshold, OBLA, children, blood lactate, exercise, 139
Physique, young weight lifters, weight classes, somatotype, elite weight lifters, 119
Postural sway, aiming time, cardiac cycle, electrocardiogram, archery, 203
Posture, sway, skill, target sports, archery, Coda-3, biomechanics, kinematics, 223
Psychological factors, competitive levels, gymnastics, 149
Racket sports, skilled performance, visual perception, anticipation, expert–novice differences, 17
Release, archery, biomechanics, electromyography, 215
Rugby, scrummaging, spinal injury, rules of play, forward play, 47
Rules of play, forward play, rugby, scrummaging, spinal injury, 47
Running performance, marathon, ultra-marathon, $\dot{V}O_2$ max, lactate turnpoint, peak treadmill velocity, 35
Scrummaging, spinal injury, rules of play, forward play, rugby, 47
Shooting, simulation, archery, arrow, bow, 259
Simulation, archery, arrow, bow, shooting, 259
Skill, target sports, archery, Coda-3, biomechanics, kinematics, posture, sway, 223
Skilled performance, visual perception, anticipation, expert–novice differences, racket sports, 17
Somatotype, elite weight lifters, physique, young weight lifters, weight classes, 119
Specificity, target shooting, archery, electromyography, muscle activity, 235
Spinal injury, rules of play, forward play, rugby, scrummaging, 47
Sway, skill, target sports, archery, Coda-3, biomechanics, kinematics, posture, 223
Target shooting, archery, electromyography, muscle activity, specificity, 235
Target sports, archery, Coda-3, biomechanics, kinematics, posture, sway, skill, 223
Training, anaerobic threshold, OBLA, children, blood lactate, exercise, peak $\dot{V}O_2$, 139
Ultra-marathon, $\dot{V}O_2$ max, lactate turnpoint, peak treadmill velocity, running performance, marathon, 35
Visual perception, anticipation, expert–novice differences, racket sports, skilled performance, 17
$\dot{V}O_2$ max, lactate turnpoint, peak treadmill velocity, running performance, marathon, ultra-marathon, 35
Weight classes, somatotype, elite weight lifters, physique, young weight lifters, 119
Young weight lifters, weight classes, somatotype, elite weight lifters, physique, 119
